communications

KEEPING YOU SAFE AND ON-MISSION

Unleash your team's potential with fit-for-purpose, critical communications solutions from Tait Communications.

For more than 50 years, Tait Communications has been designing, delivering and supporting critical communications networks for public safety, transportation, mining, oil and gas, and utilities customers around the world.

Tait Communications helps you stay safe and on mission when the heat is on. From comprehensive radio networks with advanced data capabilities, to support and managed services, you can trust Tait. Built with Kiwi ingenuity in Christchurch, New Zealand, we put your safety at the top of our agenda day in, day out.

We believe we can make the world a safer, better and more efficient place through our commitment to open standards, interoperability and better safety outcomes.

Tait solutions are customizable, versatile, flexible and built for every challenge. We uphold the principles of our founder, Sir Angus Tait:

**“ IF IT CAN SAVE
A LIFE, MAKE IT
TOUGH ENOUGH
TO SURVIVE
ANYTHING.**

TAIT ADVANTAGE

24/7 SUPPORT SERVICES

Expand your in-house team with LMR specialists by accessing 24/7 support services when you need them, allowing your team to remain focused on their priorities.

Best practice for ensuring service continuity across organizations highlights the need for more consistent service delivery. Tait Advantage provides access to a unique blend of services that allow communications professionals to deliver predictable, quality service to their business and workforce.

The Tait Advantage Support Services Package provides support for your Tait network infrastructure and can also optionally include support for Tait Terminals.

It includes:

- › 24/7 technical support
- › Remote diagnostics
- › Break/fix support
- › Online customer portal
- › Assistance with network software updates

Optional Add-ons:

- › 24/7 monitoring
- › Extended warranties

24/7 TECHNICAL SUPPORT

Tait provides technical support to ensure our customers' systems remain active. Experienced customer support engineers work to perform incident resolution activities ranging from end user assistance to remote diagnostics.

We provide 24/7 access to our experienced technical support team for any questions or issues that might arise. That includes assisting in configuring products and responding to general technical queries.

ONLINE CUSTOMER PORTAL

Proactively manage service cases, download software updates and access support documentation online anytime. Using a web browser and secure login, access your service account to create new cases, track active cases and review previous cases.

REMOTE DIAGNOSTICS

Speed time to problem resolution by bringing expertise directly to the source. Following your security protocols, Tait Engineers access your network remotely to diagnose and recommend actions to resolve incidents in real-time.

BREAK/FIX SUPPORT

Tait Engineers work to published SLAs for responses and service restoration so you can rest assured that your priority becomes ours. Tait systems restoration is managed through incidents, where our priority is restoration of service. Problems, or requests to fix underlying defects, and service requests, requesting a type of service or information, are actioned during normal business hours.

ACCESS SOFTWARE UPDATES

Ensuring your software is current protects you from vulnerabilities, can improve performance and stability, minimizes downtime and keeps your system running smoothly. Continue to realize the full potential of your

TAIT ADVANTAGE **24/7 SUPPORT SERVICES**

Tait investment through ongoing maintenance. Securely access and download firmware and software updates, as well as calibration and service kits used to configure, diagnose and update your equipment. With Tait Advantage, our experienced engineers can also assist you with planning and updating your network software.

EXTENDED HARDWARE WARRANTY (OPTIONAL)

Feel secure in knowing that Tait Communications designs and manufactures all its products with the highest quality of materials and workmanship, so we can confidently stand behind them for years. With a 5+years** extended hardware warranty, in the event a hardware defect is found, Tait will promptly correct the problem through free repair or replacement*.

Our years of expertise alongside your extended hardware warranty ensures your device will be promptly and expertly repaired or replaced so you can get back to business.

NETWORK MONITORING 24/7 (OPTIONAL)

Network monitoring is an optional add-on to Tait Advantage. It provides 24-hour, 7 days a week, year-round monitoring of your Tait critical communications networks, reducing stress on your team and enabling faster resolution.

Customers receive notifications of incidents, regular reporting, and quarterly service reviews. Monitoring occurs over a secure connection to the customer radio network.

Ensure you have system resiliency, especially during significant events, with an additional pair of eyes on your radio communications network.

OTHER SUPPORT SERVICES PACKAGE OPTIONS

Tait offers three tiers of support services package, flexible enough to cater to the unique requirements of any organization.
