

Matrix Mini

Empowering
Retail Safety

Protect Your Team

Designed to protect against occupational abuse and violence, the Matrix Mini body worn camera offers retail staff unparalleled safety and security with its compact design, high-definition video and audio recording, and real-time monitoring.

Matrix Mini ensures that your team feels safe, supported, and empowered in any situation, while deterring potential threats and providing invaluable evidence when needed most.

Intelligence in Motion

Key Features

FULL SHIFT BATTERY LIFE

Ensuring your camera lasts a whole shift is critical to ensuring recording capability.

HD LIVE STREAMING

The original innovators in mobile live streaming now deliver enhanced HD capability with Matrix Mini, offering the leading technology in body worn real-time intelligence.

ENCRYPTION & SECURITY

Ensures your data is protected on the camera and in transit with gold standard encryption AES256, signed digital certificates, secure socket layer technology.

IP65 rated

Dust resistant and waterproof up to 1 metre and for 30 minutes; the Matrix Mini was designed with durability in mind, for any environment.

ULTRA LONG STANDBY

Power up and record in 2 seconds with a single button press, with up to 100 hours in ultra-long standby mode.

ULTRA LOW LIGHT

The Matrix Mini's 120-degree lens ensures that what you see is what you get.

PRE-RECORDING

The pre-record function enables you to capture video even before you initiate recording.

STEALTH MODE

Dangerous situations demand that operators keep a low profile. Stealth mode disables all lights and sounds so that you don't attract any unwanted attention.

Weighing 75g and about the size of a card deck, the Matrix Mini is lighter than your average modern mobile phone.

DROP-IN DOCK

Time is of the essence, the Drop-In Dock allows you to rapidly offload the recorded content to secure storage at the end of a shift.
