ALTITUDE DIGITAL EVIDENCE MANAGEMENT SYSTEM

Altitude DEMS is more than just storage, it's a complete digital evidence ecosystem built for those who serve and protect. From real-time streaming and live situational awareness to tamper-proof security and AI-powered privacy tools. Altitude ensures every moment is captured, secured, and accessible when it counts most. Reliable, scalable, and designed to perform under pressure, because the frontline deserves nothing less.

INTRODUCTION

m-View is a secure, open, and affordable body-worn video and evidence management solution. It helps frontline teams feel safer and operations more accountable by combining rugged cameras, real-time streaming, and flexible evidence management, all designed to integrate seamlessly with customer systems and scale across industries.

PROTECTION THROUGH TRUST

We stand with those who serve on the frontlines (law enforcement, emergency responders, and public protectors). By giving them the tools to capture truth and evidence with confidence, we ensure they are never left without support in moments that matter most.

EMPOWERMENT FOR EVERYDAY HEROES

Our video solutions are designed to empower the protectors. Whether it's a police officer or council worker we give them the tools they need to do their jobs safely and with dignity.

SAFETY FIRST, ALWAYS

At the heart of m-View is a commitment to safer communities. We believe that everyone deserves to feel protected; from the frontline field to the families and citizens they look out for.

RELIABILITY UNDER PRESSURE

Those who protect others don't always get second chances. That's why our solutions are built to perform in high-stress environments. Reliability isn't just a feature; it's a promise we make to those who depend on us.

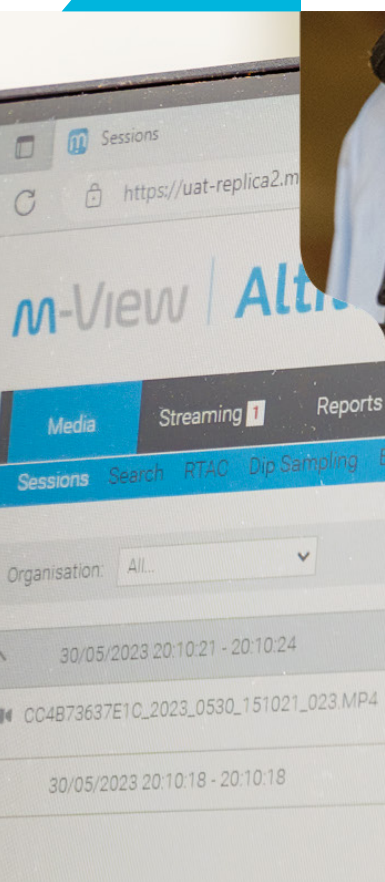

"I recommend m-View to all emergency services. It's given us live situational awareness, to be able to see what's happening in the field rather than imagining or guessing".

Station Officer, Fire & Rescue NSW

"m-View's Body Worn Video solution is a game-changer! It's like having an extra set of eyes on the ground, ensuring our team feels secure, and incidents are documented with clarity. Top-notch reliability make it a must-have in our line of duty"

Altitude EVIDENCE MANAGEMENT SYSTEM

BENEFITS

UNIFIED EVIDENCE ECOSYSTEM

Altitude is the secure home for all your digital evidence. It brings together high-quality video, audio, and data from the m-View body-worn cameras, protecting the truth from the moment its captured.

LIVE SITUATIONAL AWARENESS

See what matters in real time. Stream from multiple cameras simultaneously, track locations, and give supervisors the visibility they need to act with clarity and confidence.

EASY EVIDENCE UPLOAD

Altitude makes it easy to upload evidence securely. All recordings are automatically uploaded - simply by docking the camera, or when livestreaming is active.

MORE THAN STORAGE

Altitude empowers your team to manage, review, and share evidence with confidence. It delivers clear insights, greater accountability, and the operational transparency your community deserves.

INGEST & STORE EVIDENCE

m-View's secure cloud platform effortlessly stores large data volumes, capable of scaling to support over the creation of evidence by 1,000s of cameras in a single instance.

MAINTAIN EVIDENCE INTEGRITY

Altitude DEMS ensures tamper-proof digital evidence through advanced cryptographic techniques and secure storage protocols. Maintaining chain of custody and system audit logs to monitor user behaviour, and safeguarding confidentiality.

AI-POWERED PRIVACY PROTECTION

Altitude safeguards personal information with built-in tools that protect people while keeping evidence secure. Faces can be automatically blurred with AI-powered video redaction, and private conversations can be muted with audio redaction.

SECURELY MANAGE YOUR DATA

Altitude organises, categorises, and retrieves data with advanced metadata tagging, facilitating secure sharing among authorised personnel for enhanced investigative effectiveness.

SIMPLE INCIDENT COLLATION

Altitude DEMS allows easy compilation of evidential footage with other critical data for real-time or retrospective incident insights.

Altitude EVIDENCE MANAGEMENT SYSTEM

FEATURES & SPECS

OPEN ECOSYSTEM CONNECTIONS.

Altitude is built on an open ecosystem philosophy: where others create barriers, we remove them. Designed to integrate with your existing systems, Altitude supports open standards and APIs so organisations can scale on their terms. From Computer Aided Dispatch to Video Management and Records Management systems, Altitude connects into most ecosystems.

✓ Full Audit and Chain-of-Command Logs

Maintain transparency and accountability with comprehensive audit logs and chain-of-command records.

✓ Granular Role-Based Permissions

Enforce strict access control with granular role-based permissions for enhanced security.

✓ ISO27001 Certified

m-View proudly holds ISO27001 certification, ensuring the highest standards in information security.

✓ SHA-256 Cryptographic Hash

Preserve the integrity of evidence with SHA-256 cryptographic hash technology to prevent tampering.

✓ RTAC (Request to Access Content)

Efficiently manage evidence access through RTAC, ensuring meticulous control over data integrity.

✓ TLS1.2 Encryption

Encryption at rest and in transit – AES 256 secures all data at rest, TLS 1.2 protects data in transit

✓ Flexible Deployment Options

Altitude is available as Software-as-a-Service (SaaS), private cloud, or on-premise.

Available in Asia Pacific, Europe, Middle East and Africa
