DURESS

MATRIX 4G **BODY WORN CAMERA**

The Matrix 4G body worn camera is a powerful wearable camera. Equipped with on-board 4G modem and SIM card slot, the Matrix 4G can live-stream at the press of a button, sending a duress alert that instantly send the location to the command centre and starts streaming HD video. Designed for simplicity, effectiveness, and reliability in the field, requiring a single button press to record or stream with high-quality audio and video.

m-View
A Tait Company ●●

m-View is a secure, open, and affordable body-worn video and evidence management solution. It helps frontline teams feel safer and operations more accountable by combining rugged cameras, real-time streaming, and flexible evidence management, all designed to integrate seamlessly with customer systems and scale across industries.

PROTECTION THROUGH TRUST

We stand with those who serve on the frontlines (law enforcement, emergency responders, and public protectors). By giving them the tools to capture truth and evidence with confidence, we ensure they are never left without support in moments that matter most.

EMPOWERMENT FOR EVERYDAY HEROES

Our video solutions are designed to empower the protectors. Whether it's a police officer or council worker we give them the tools they need to do their jobs safely and with dignity.

SAFETY FIRST, ALWAYS

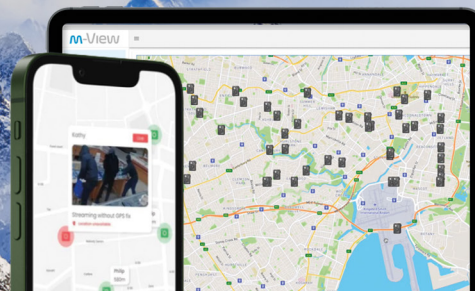

At the heart of m-View is a commitment to safer communities. We believe that everyone deserves to feel protected; from the frontline field to the families and citizens they look out for.

RELIABILITY UNDER PRESSURE

Those who protect others don't always get second chances. That's why our solutions are built to perform in high-stress environments. Reliability isn't just a feature; it's a promise we make to those who depend on us.

Altitude

DIGITAL EVIDENCE MANAGEMENT SYSTEM

UNIFIED EVIDENCE ECOSYSTEM

Altitude is the secure home for all your digital evidence. It brings together high-quality video, audio, and data from m-View body-worn cameras, protecting the truth from the moment it is captured.

LIVE SITUATIONAL AWARENESS

See what matters in real time. Stream from multiple cameras simultaneously, track locations, and give supervisors the visibility they need to act with clarity and confidence.

MORE THAN STORAGE

Altitude empowers your team to manage, review, and share evidence with confidence. It delivers clear insights, greater accountability, and the operational transparency your community deserves.

AUTOMATIC EVIDENCE ANYWHERE

Altitude collects and uploads footage from body-worn cameras immediately, whether in the field or at the station. Your team stays focused on protecting people, not distracted by technical processes.

AI-POWERED PRIVACY PROTECTION

Altitude safeguards personal information with built-in tools that protect people while keeping evidence secure. Faces can be automatically blurred with AI-powered video redaction, and private conversations can be muted with audio redaction.

ISO27001 CERTIFIED

m-View and Tait proudly hold ISO27001 certification, ensuring the highest standards in information security.

Matrix 4G BODY WORN CAMERA

BENEFITS

Capture clear evidence and provide instant support when situations escalate.

Safeguard with live streaming ensuring every critical moment is instantly visible & supported.

Clear video evidence of every interaction, building trust & transparency safely.

PROOF THAT PROTECTS, SAFETY YOU CAN SEE

Matrix 4G is your partner in truth and safety. It captures clear, court-ready evidence, supports your team with real-time streaming, and safeguards data with built-in security.

EVERY DETAIL, EVERY TIME

Wide angle 140° lens to record in clarity, capture snapshots during video, and store footage with GPS, time, and user ID watermarks for unquestionable authenticity.

DAY OR NIGHT CONFIDENCE

Dual IR illuminators and ultra-low light performance ensure faces and details are visible even in total darkness. Automatic night vision means the camera adapts instantly to changing light conditions.

GOING LIVE SAVES LIVES

Stream in real-time over 4G or WiFi so command knows what is happening on the ground. Evidence and alerts are delivered instantly, not hours later.

SAFEGUARDED DATA

AES256 and RSA2048 encryption secure every file and log. Your evidence is protected from capture to courtroom. Up to 128GB of encrypted storage protects evidence and keeps it ready when needed.

DESIGNED TO MOVE WITH YOU

Lightweight and compact, with glovefriendly controls and a heads-up interface that feels second nature from day one.

FULL-SHIFT POWER

With a runtime of up to 12 hours or HD live-stream for up to 6, one charge covers an entire day's work.

BUILT TO LAST

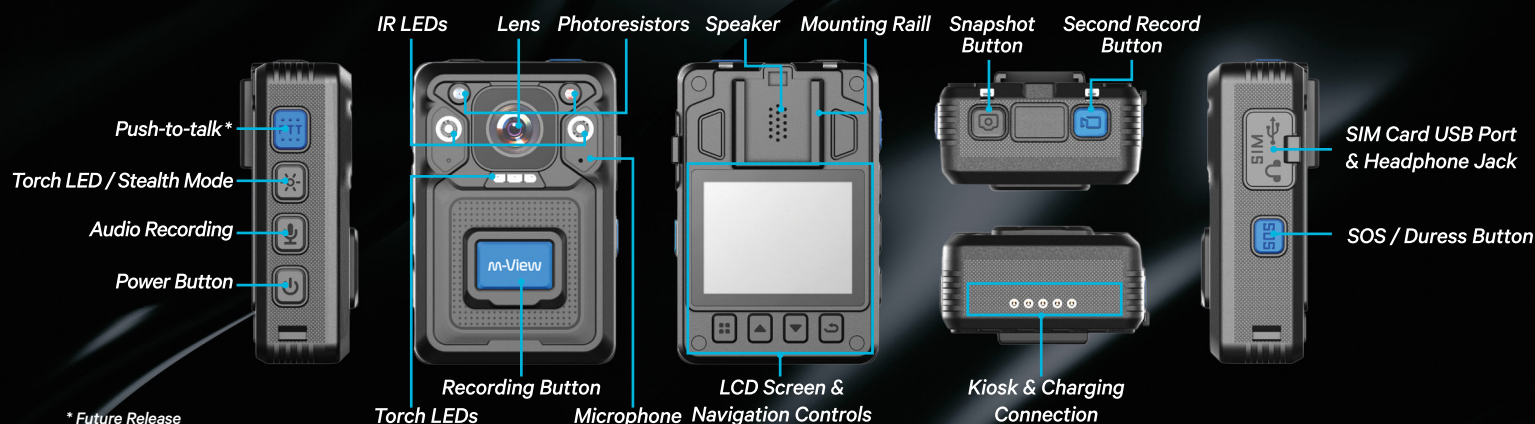

Matrix 4G is rugged, reliable, and designed to empower workers under pressure. Drop tested to 2m, IP67 rated, and MIL-STD-810G certified.

Matrix 4G BODY WORN CAMERA

SPECIFICATIONS

GENERAL INFORMATION	
Dimensions (DxWxH)	27.3 x 84.5 mm x 56.3 mm
Weight	162g
VIDEO	
Main Recording	2560x1440p @ 30 FPS, 1920x1080p @ 30 or 60 FPS, 1280x720 @ 30 or 60 FPS, 848x480P @ 30 or 60 FPS
Live Streaming	1280x720 @ 5-30 FPS, 848x480 @ 5-30 FPS, 432x240 @ 5-30 FPS
Pre and Post Record	Pre-record up to 120s (resolution dependent), post record up to 60 seconds
PHOTO	
Photo	4Megapixel (MP), 8MP, 12MP, 16MP, 32MP, 40M JPEG
Snapshot	Capture Photos While Video Recording same resolution as video
CONNECTIVITY	
Wireless	4G/LTE cat-4 up to 150/50Mbps module with SIM card slot, regions UK/Europe, Middle-east, Latin America, ANZ, APAC
Wi-Fi	Wi-Fi 802. 1a, b, n, ac dual band 2.4/5GHz
Bluetooth®	Bluetooth® 5.0, BLE (SDK for mobile app integration), BLE peer trigger
BATTERY	
Type	3450mAh Lithium-ion Integrated Battery
Recording Time	12 Hours
Charging	Pogo-pin docking connectors and USB Type-C Port, <5 hours
ACCESSORIES	
Standard Included	USB Cable, Charging Cradle, Metal Clip

PERFORMANCE			
Recording Time		14hrs 720p, 12 hours 1080p	
Infra-red Mode		2 x IR LED illuminators, auto switching via photo-resistor	
Night Vision		Ultra low light colour performance. Dual IR illuminators whith up to 10 Meters whith Visible Face Detection, Auto-activation IR LEDs	
Drop/Shock		Tested for 2m drop to concrete, MIL-STD-810H, IEC60068-2-31 rough handling shock	
Ingress Protection		IP67	
Lens Angle		Wide Angle 140 degrees diagonal	
Notifications		LED. Audible, Haptic (Vibration), LCD screen notifications	
Location		GPS/GNSS lat/long, speed	
Working Temperature		-10~ +60 degrees celcius	
Storage Temperature		-0~ +55 degrees celcius	
SECURITY			
Encryption		AES256 encryption of data at rest and in transit	
Storage		64GB, Internal, non-removeable storage, up to 65 hours of 1080p recording. Optional 128GB, 256GB storage	
Watermark		User ID, HW ID, DateTime Stamp, GPS Lat/Long, Speed	
CERTIFICATIONS			
CE Red	✓	WEEE	✓
FCC	✓	REACH	✓
RCM	✓	ROHS	✓
