Tait DMR, a smart investment, made to evolve.

Achieve more with your radio network. The most flexible devices and networks, with smart voice and data applications.

The flexible TM9355 mobiles offer conventional and trunked DMR operation as well as full MPT1327, and analog conventional FM in one device.

Improve workforce safety with smart features such as Location Services, Tait GeoFencing, and Lone Worker functionality.

Supercharge the performance of your TM9355 with TAIT AXIOM Mobile options to provide edge computing and applications processing, WiFi vehicle area networks and LTE connectivity.*

* Please refer to TAIT AXIOM Mobile documentation, or contact Tait or an authorized channel partner for more details.
FEATURES AND BENEFITS*

TM9355 features to improve workforce safety

- Lone Worker as standard
- Tait GeoFencing Automated Location Controlled Behavior
- Crystal-clear voice so the operator and user will understand the message
- Emergency calls have priority access to the network, and can be integrated with a GNSS location solution
- Blast Alarms and Audible Alerts in DMR modes

Tait GeoFencing Automation

- Radios can automatically take a range of actions based on location, such as change modes, send messages, hazardous area alert, activate lone worker features, or activate radio I/Os to turn lights on
- Independent of the network, dispatch, or any other software applications

Improve your organization’s efficiency

- Text messaging for enhanced and unambiguous communications
- Pre-defined status messages for fast notification and response in common situations
- Over-the-air-programming (OTAP) with the industry-leading EnableFleet configuration management system delivers software and firmware changes over the Tait DMR Tier 3 radio network or WiFi (when optional WiFi OTAP is fitted), making it faster, easier and more affordable to update and optimize the performance of radios in your fleet

Privacy features

- Trunked operation allows for individual and private calls within designated groups
- Optional DES or AES encryption for privacy of conversations

Facilities to improve network security

- When operating in DMR mode all terminals must be authenticated on the network before they are given access
- Stun and Revive are implemented to temporarily deny a specific portable access to the network

Designed to perform in demanding environments

- Configurable to suit your needs: dual head (Large or Hand Held Control Head) and remote mount 19ft and 60ft (6m and 12m) options
- Four programmable function keys on the Large Control Head, six programmable function keys on the Hand Held Control Head, including a programmable orange emergency key
- Engineered for use in demanding environments with tough die-cast metal chassis with IP54 rated casing, giving protection against dust and splashing water

Voice communications delivering on operational needs

- Quad mode terminal offering Trunked DMR, Conventional DMR, MPT 1327 and analog conventional FM in one device
- Roaming between MPT 1327 and DMR Tier 3 trunked networks
- Roaming between Conventional FM and DMR Tier 2 Conventional networks
- Open DMR standard provides choice and interoperability
- Individual calls provide privacy between individuals
- Group calls allow separate teams to communicate amongst themselves without having to listen to irrelevant traffic
- Increased channel capacity with support of up to 1500 channels
- Scanning modes include: priority, dual priority, zone, and background scan – groups are editable
- PSTN dialling allows a user to make phone calls on DMR systems that support telephone interconnect
- Crystal-clear voice quality
- Shared clear voice quality
- Flexible menu structure between all 9300 terminals

Complete package with accessories portfolio

- Graphical Control head with built-in 3W speaker with standard microphone or optional alphanumeric keypad microphone with backlight
- Hand Held Control Head with display and alphanumeric keypad microphone with backlight
- 10W and 16W remote speaker options
- Power supply units
- Variety of vehicle installation kits for different mounting options
- Programming and service kits for ease of configuration and set up

Data Services

- Embedded data for location
- Short data messages for location, status and text
- Internal and external GNSS options available to improve efficiency and safety (please refer to product catalog)
- Packet data over traffic channels for workforce management, Telemetry, SCADA and customer specific applications
- CDI connectivity to the mobile for short data and control messages in conventional mode
- RAP connectivity to the mobile for short data and control messages in trunked mode
- IP data in digital trunked mode
- USBD Fast Polling – capable of 2000 polls per minute on compatible DMR Tier 3 systems

Color Options

- TM9355 mobile Hand Held Control heads are available in black, yellow, green and red. Large Control Heads in black, yellow, and green.
- Different color options make it easier for workgroups to identify their equipment in the field

Flexible and Easy to Use

- Channel Authorization for DMR Tier 2 and Tier 3 gives users confidence their call will be heard
- Proceed to Talk Tone available in all modes, for consistent operation

* Not all features are supported in all models or modes of operation. Contact Tait or an authorized channel partner for more details.
**GENERAL**

- **Frequency stability**: ±0.5ppm (-22°F to 140°F/-30°C to 60°C)
- **Conventional Mode**
  - Networks: 26
  - Channels/zones: 1,500 channels / 100 zones
  - Scan groups: 300 with up to 50 members each
- **Trunked Mode**
  - Networks: 4
  - Talk groups: 512 talk group lists
  - Zones and work groups: 1,000 zones, 1,000 work groups
- **Dimensions**
  - Body - in (mm): Height: 25.2 (52), 30W/36W/50W, 21.5 (52)
  - Width: 25.2 (160), 30W/36W/50W, 6.3 (160)
  - Depth: 25.2 (175), 30W/36W/50W, 7.7 (195)
  - Graphical control head - inches (mm): Height: 2.8 (71), Width: 7.24 (184), Depth: 1.38 (35)
- **Weight - lb (kg)**
  - Body: 25W: 2.6 (1.2), 30W/36W/50W, 3.11 (1.4)
  - Control head: 0.73 (0.333)
- **Supported Languages**
  - English (Default), German, French, Spanish, Portuguese, Czech, Russian, Polish, Bulgarian
- **Channel spacing**: 6.25/12.5/15/20/25/30kHz
- **Frequency increment/channel step**: 2.5kHz/5kHz/6.25kHz
- **Operating temperature**: -22°F to 140°F (-30°C to 60°C)
- **Water and dust protection**: IP54
- **ESD rating**: +/-4KV contact discharge and +/-8KV air discharge
- **Rated audio**: Internal speaker or external speaker
- **Power supply**: DC: 10.8-16VDC
- **Digital Protocol**: DMR: ETSI TS 102 361-1, -2, -3, -4
- **General System Design standard**: ETSI TR 102 996 V1.4.1
- **Signaling options (Analog)**
  - MDC1200, encode and decode, Tone decode; PL, (CTCSS), DPL, (DCS), Selcall
- **Vocoder type**: AMBE +2™
- **Packet Data**: 1/2 Rate, 3/4 Rate, Full rate, Single Slot

*Wideband operation is not available in the USA in some bands.
* The 25W UHF radiol bandaries are approved for use in Citizen Band in Australia and New Zealand when programmed to meet the requirements of AS/NZS4365.
* Tait cannot guarantee full performance to the published specifications when the 378-470MHz and 400-470MHz band radiat is operating at the CB frequencies.
* 25 Watt models only.
* 400-470MHz band only.

**Contact your local Tait representative for more information.
* Supports 700 A-Block frequencies (757-758MHz Tx & Rx: 787-788MHz Tx)

TAIT DMR SOLUTION

Backed by our proven radio network expertise, the TM9355 mobile is part of our larger DMR offering. The Tait DMR solution consists of terminals, infrastructure, applications, services and integration with third party interfaces to ensure that your organization can reap all the benefits of the spectrally-efficient DMR standard in a mission critical environment.

Tait has taken every care in compiling this specification sheet, but we're always innovating and therefore changes to our models, designs, technical specification, visuals and other information included in this specification sheet could occur. For the most up-to-date information and for a copy of our terms and conditions please visit our website www.taitcommunications.com.

The words “Tait”, “TAIT ANION”, “Tait Unified”, the “Tait” logo and are trademarks of Tait International Limited.

Tait International Limited facilities are certified for ISO 9001:2015 (Quality Management System), ISO 14001:2015 (Environmental Management System) and ISO 45001:2018 (Occupational Health and Safety Management System) for aspects associated with the design, manufacture and distribution of radio communications and control equipment, systems and services. In addition, all our Regional Head Offices are certified to ISO 9001.
