Designed for maximum safety in the field and enhanced usability

Intrinsically Safe Division 1 Tait DMR portables are engineered to operate safely in hazardous environments, with the highest Class 1 Division 1 gas ratings in the market. Offering protection from the most volatile gases ensures your people have communications they can depend on.

This enables faster safety assessment when responding to the unknown, and allows use of Tait radios in Hazardous locations where other IS radio use today may be limited.

Built Tait Tough, the flexible TP9358 and TP9368 portables offer conventional and trunked DMR operation as well as full MPT 1327, and analog conventional FM in one device.

Improve workforce safety with smart features such as Location Services, Tait GeoFencing, and Man Down functionality.
FEATURES AND BENEFITS*

Flexible and Easy to Use
- Clear communication with DMR AMBE+2™ enhanced digital vocoder and digital noise suppression software
- Four programmable function keys and three-way selector
- Tailor your experience with wide range of accessory options
- Channel Authorization for DMR Tier 2 and Tier 3 gives users confidence their call will be heard
- Proceed to Talk Tone available in all modes, for consistent operation

DMR smart voice and data
Benefit from the spectral efficiency, multi-vendor interoperability, security, migration and data capability of DMR open standards
- Text messaging for enhanced and unambiguous communications
- Short data messages for location, status and text
- Packet data over traffic channels for work force management and customer specific applications
- IP data in digital trunked mode
- USB/DFast Polling – capable of 2000 polls per minute on compatible DMR Tier 3 systems

Tait Tough – Designed to perform
- Water-shedding grille maintains transmitted voice clarity and high audio volume in wet environments
- IP65 & IP67 dust and water proof
- Display screen protected by recess
- Drop test exceeds MIL-STD-810G
- Shock absorbing corner protection
- Supported by a range of Tait Tough audio and carry accessories

Complete package with accessories portfolio
- Intrinsically Safe audio accessories including speaker-microphones, headsets and earpieces.
- Intrinsically Safe Li-Ion battery.
- Intrinsically Safe compatible battery charger.

DMR specifications
Tait infrastructure and terminals are designed as per the following DMR Specifications:
- ETSI TR 102 398 V1.1.1 General System Design
- ETSI TS 102 361-1 V2.51 DMR Air Interface (AI) protocol
- ETSI TS 102 361-2 V2.4.1 DMR voice and generic services and facilities
- ETSI TS 102 361-3 V1.31 DMR data protocol
- ETSI TS 102 361-4 V1.111 DMR trunking protocol

Extensive network capabilities
- Future proof quad mode portable radio offering Trunked DMR, Conventional DMR, MPT 1327 and analog conventional FM in one device
- Roaming between MPT 1327 and DMR Tier 3 trunked networks
- Roaming between Conventional FM and DMR Tier 2 Conventional networks
- Individual calls for private discussions
- A range of call types for individual and group communication with without the distraction of irrelevant traffic
- Increased channel capacity with up to 1,500 channels
- Scanning modes include: priority, dual priority, zone, and background scan – groups are editable
- PSTN dialling allows a user to make phone calls on DMR systems that support telephone interconnect
- Trunked operation allows for individual and private calls within designated groups
- Pre-set status messages

Personalization options
- Choose from 4-key (TP9358) and 16-key (TP9368) radios.
- Hi-visibility green, black, and yellow color options for easy identification in the field.

Improve workforce safety
- Programmable emergency key is easily accessible and highly visible
- Man Down and Lone Worker
- Integrated GPS option for Location Services
- Tait GeoFencing option for automated location based behavior
- Emergency calls have priority access to trunked networks
- Blast Alarms and Audible Alerts in DMR modes
- Designed and tested to meet relevant global IS standards:
  - The battery circuitry is fully encapsulated
  - The radio circuit has a stored energy limitation, which prevents internal sparking or overheating in the unlikely event of a circuit failure
  - Component and conductor spacing and protective coatings prevent short circuits caused by dust or atmospheric contamination

Tait GeoFencing Automation
- Radios can automatically take a range of actions based on location, such as change modes, send messages, hazardous area alert, or activate lone worker features
- Independent of the network, dispatch, or any other software applications

Tait EnableFleet Industry leading configuration management system
- Total visibility of your fleet from a secure, central point of control
- Wired connection or Over-the-air programming (OTAP) to update configuration and software files
- OTAP via DMR trunked networks

Secure communications
- Radio inhibit and uninhibit to allow management of misplaced or stolen radios
- Configurable DMR authentication to protect network access
- Supports end-to-end encryption, including DES, ARC4, or AES
- Tait EnableProtect Advanced System
  Key ensures only authorized personnel can access radio software and configuration
**TP9358 & TP9368 IS Division 1 SPECIFICATIONS**

**GENERAL**

**Conventional Mode**
- Networks: 26
- Channels/zones: 1,500 channels / 100 zones
- Scan groups: 300 with up to 50 members each

**Trunked Mode**
- Networks: 4
- Talk groups: 5/2 talk group lists
- Zones and work groups: 1,000 zones, 1,000 work groups
- Frequency stability: ±0.5ppm (-22°F to 140°F / -30°C to 60°C)

**Dimensions (DxWxH):** With Li-Ion 2300 mAh battery: 1.77 x 2.56 x 6.35in (45 x 65 x 160mm) excluding knobs

**Weight - With Li-Ion 2300 mAh battery:** 13.9oz (391g) - no antenna, 15.7oz (439g) with IS battery and antenna

**Radio Operating temperature range:** -20°C to 60°C (-4°F to 140°F) * 

**Water and dust protection:** IP67 & IP65

**ESD rating:** +/- 4kV contact discharge and +/-8kV air discharge

**Frequency increment/channel step:** 2.5/3/125/5/62.5kHz

**Air interface standard:** DMR: ETSI TS 102 361-1, -2, -3, -4

**General system design standard:** ETSI TR 102 398 V1.1

**Signalling options (Analogue):** MDC1000, encode and decode, Two tone decode, PL (CTCSS), DPL (DCS), Selcall (5 - tone)

**Vocoder type:** AMBE +2™

**Packet Data:** ½ Rate, ¾ Rate, Full rate, Single Slot

* Subject to Compliance, Ambient Temperature: T4 -20°C < Ta < +50°C, T3 -20°C < Ta < +60°C

TAIT DMR SOLUTION

Backed up by our proven radio network expertise, the TP9300 is part of our larger DMR offering. The Tait DMR solution consists of terminals, infrastructure, applications, services and integration with third party interfaces to ensure that your organization can reap all the benefits of the spectrally-efficient DMR standard in a mission critical environment.

Tait has taken every care in compiling this specification sheet, but we reserve the right to make changes to our models, designs, technical specification, visuals and other information included in this specification sheet at any time. For the most up-to-date information and for a copy of our terms and conditions please visit our website www.taitcommunications.com or check with your nearest Tait office or authorized dealer.
