Designed for maximum safety in the field and enhanced usability

Intrinsically Safe Division 1 Tait P25 portables are engineered to operate safely in hazardous environments, with the highest Class 1 Division 1 gas ratings in the market. Offering protection from the most volatile gases ensures your people have communications they can depend on.

This enables faster safety assessment when responding to the unknown, and allows use of Tait radios in Hazardous locations where other IS radio use today may be limited.

Built Tait Tough, the flexible TP9458 and TP9468 portables offer both analog and digital modes including P25 Phase 2, and strong encryption management capability in one device.

Improve workforce safety with smart features such as Location Services, Tait GeoFencing, and Man Down functionality.
FEATURES AND BENEFITS

Flexible and Easy to Use
- Clear communication with P25 AMBE+2 enhanced digital vocoder and digital noise suppression software
- Four programmable function keys and three-way selector
- Tailor your experience with wide range of accessory options

Extensive Network Capabilities
- Future proof multi-mode flexibility offering analog, P25 Phase 1 conventional/trunked and P25 Phase 2 trunked
- Automatic dual mode between analog and P25 Phase 1 conventional
- Support for a variety of analog and digital simulcast modes including LSM and C4FM
- Voting ensures priority selection of the channel with optimum receive quality
- Dynamic regrouping and supergroup operation for mission critical workforce management
- Increased channel capacity with up to 2,000 channels
- Scanning modes include: priority, dual priority, editable, zone, and background scan
- Range of analog signaling functionality, i.e. MDC1200 encode and decode, Two Tone decode, PL (CTCSS), DPL (DCS), 5-Tone Selcall
- Trunked failsoft reverts to conventional operation during trunked network failure
- Pre-set status messages
- Conventional and trunked IP data

Improve workforce safety
- Programmable emergency key is easily accessible and highly visible
- Man Down and Lone Worker
- Integrated GPS option for Location Services
- Tait GeoFencing option for automated location based behavior
- Designed and tested to meet relevant global IS standards:
  - The battery circuitry is fully encapsulated
  - The radio circuit has a stored energy limitation, which prevents internal sparking or overheating in the unlikely event of a circuit failure
  - Component and conductor spacing and protective coatings prevent short circuits caused by dust or atmospheric contamination

Tact Tough – Designed for demanding environments
- Water-shedding grill maintains transmitted voice clarity and high audio volume in wet environments
- IP65 & IP67 dust and water proof
- Display screen protected by recess
- Drop test exceeds MIL-STD-810G
- Shock absorbing corner protection

Complete package with accessories portfolio
- Intrinsically Safe audio accessories including speaker- microphones, headsets and earpieces.
- Intrinsically Safe Li-ion battery.
- Intrinsically Safe compatible charger.

Tait EnableFleet industry leading configuration management system
- Total visibility of your fleet from a secure, central point of control
- Wired connection or Over-the-air-programming (OTAP) to update configuration and software files
- OTAP via P25 trunked networks

Secure communications
- Radio inhibit and uninhibit to allow management of misplaced or stolen radios
- Supports end-to-end encryption, including AES encryption
- Tait EnableProtect KeyFill Device, Key Management Facility, and Over the Air Rekeying
- Tait EnableProtect Advanced System Key ensures only authorized personnel can access radio software and configuration
ONLY AVAILABLE IN THE USA
TP9458 & TP9468 IS Division 1
SPECIFICATIONS

GENERAL
Frequency stability ±0.5ppm (-22°F to 140°F / -30°C to 60°C)
Channels/zones 1000 – 2,000 channels/50 – 100 zones
Talk groups 50 talk groups, up to 1000 members total (2000 members optional enhancement with software license)
Scan groups 300 with up to 50 members each, maximum of 2000 members total
Dimensions (DxWxH) - With Li-Ion 2300 mAh battery 1.77 x 2.56 x 5.35in (45 x 65 x 136mm) excluding knobs
Weight - With Li-Ion 2300 mAh battery 13.93oz (395g) – no antenna, 15.17oz (430g) with IS battery and antenna
Radio operating temperature range -20°C to 60°C (-4°F to 140°F) ¹
Water and dust protection IP67 & IP65
ESD rating +/- 4kV contact discharge and +/- 8kV air discharge
Frequency increment/channel step 2.5/3125/5/6.25kHz
Signalling options (Analog) MDC1200, encode and decode, Two tone decode, PL (CTCSS), DPL (DCS), Selcall (S - tone)
Vocoder type AMBE +2™
Packet Data 1/2 Rate, 11 Rate, Full rate, Single Slot
¹ Subject to Compliance, Ambient Temperature: T4 -20°C < Ta < +50°C, T3 -20°C < Ta < +60°C

**TAIT P25 PHASE 2 SOLUTION**

Backed up by our proven radio network expertise, the TP9400 portable is part of our larger P25 Phase 2 offering. This solution consists of subscriber units, infrastructure, applications, services and integration with third party interfaces to ensure that your organization can reap all the benefits of the spectrally-efficient P25 standard.

Tait has taken every care in compiling this specification sheet, but we’re always innovating and therefore changes to our models, designs, technical specification, visuals and other information included in this specification sheet could occur.
